

SPC flooring:

This product is made up of PVC + CaCO<sub>3</sub> + Additives & it replaces all sorts of wooden / laminate / vinyl flooring as also Floor tiles. Can be made in 4 to 6 mm thickness in one to three layers. **WELSPUN has Started to make this product on a big scale.**

- Does not stink
- Termites cannot touch it
- Water cannot touch it
- Does not get eroded, colors & Design lasts for more than 50 years
- Cannot be broken while things falling upon it.

Investment in one set up can make two more products:

Marble / Granite look alike boards for walls in thicknesses 2 to 8 mm and replace all the marble / granites for walls. Made from PVC + CaCO<sub>3</sub> + Additives.

AND

1 mm thick PVC Laminate made from PVC + CaCO<sub>3</sub> + Additives.

This is replacement to all sorts of MICA / Laminates.

Do revert in case willing to go in for such a project.
